## Cycling Priorities for Torbay

- Develop a network of safe and attractive cycle routes which link town centres, employment areas, educational establishments, leisure facilities, holiday accommodation and residential areas
- Define and create a network of recreational cycle routes throughout the area
- Encourage cycling as a sustainable and healthy activity
- Ensure that all new developments, both on the highway network and within development sites, provide enhanced facilities for cyclists
- Reduce areas of potential conflict between vehicles and cyclists, particularly where capacity or safety problems exist
- Increase secure cycle parking facilities at all important destinations
- Develop the National Cycle Network within Torbay.

## Diary Dates

<b>Bike Week</b>	each June
<b>TravelWise Week</b>	each September
<b>European Car Free Day</b>	22nd September

## Want to be more *Travelwise*?

**Walking and cycling are great ways to improve your health and cut down on the pollution that goes into the Torbay air.**

The shortest car journeys (those less than two miles) cause the worst pollution because the engine is cold and straining. That short journey might be ideal for walking or cycling.

For longer car journeys, consider car sharing using [www.carsharedevon.com](http://www.carsharedevon.com) (or telephone 08700 11 11 99), a site that is completely confidential, easy to use and allows users to choose whom they want to share with, and how often they want to share.

For journey planning by public transport, use [www.traveline.org.uk](http://www.traveline.org.uk) or telephone 0870 608 2 608.

For more information on sustainable transport in Torbay, contact Nell Cruse, Transport Planner, Torbay Council on 01803 208821 or email [Nell.Cruse@Torbay.gov.uk](mailto:Nell.Cruse@Torbay.gov.uk)
